INTERAVIA

World Review of Aviation • Astronautics • Avionics

incorporating

FLYING REVIEW INTERNATIONAL

Index for Year 1976 — Volume XXXI

PRINCIPAL TOPICS

1 Helicopters—special report
The 1975 NBAA Show
Airline financing

2 Jet trainers
Air Forces of the World
The jet engine market

3 US general aviation
Military combat aircraft
The 1976 HAA meeting

4 The West German industry
The commercial aircraft market to 1990
In-flight catering

5 Powerplants
Concorde enters service
The West German Air Force

6 The Hannover Show
Aviation security
The US general aviation market

7 Lockheed and Boeing review traffic growth
The European industry
Space—has Europe a chance?

8 The 1976 Reading Show
Helicopter IFR
The Autoland system

9 The UK industry
Ground Proximity Warning Systems
US/European co-operation

10 Pillars of world air transport
Farnborough report (1)
The Japanese industry

11 Farnborough report (2)
Military programmes update
The 1976 NBAA Show

12 The Canadian industry
Aviation in the Third World
The ASMR project

SUBJECT INDEX

CIVIL AVIATION

a) Air transport

Training helicopter pilots at Oxford 1/51
Planning for growth at Continental Airlines *(J. P. Geddes)* 1/53
Airlines walk the financing tightrope — not always successfully *(Nicolas Travers)* 1/60
Air traffic control automation *(Dan Boyle)* 2/155
Integration in the European air tourism industry — Part 1 *(André Perrault)* 2/140
The air transport customer in 1980 2/143
Integration in the European air tourism industry — Part 2 *(André Perrault)* 3/235
Lufthansa looks towards the 1980s: An *Interavia* interview with Reinhardt Abraham 4/346
Airbus in the West Indies *(A. Wallis)* 4/298
In-flight catering: competitive value versus cost 4/371
Leading manufacturers of aircraft galley systems 4/374
The uncertain market for commercial aircraft to 1990: a McDonnell Douglas survey *(J. P. Geddes)* 4/350
Trans Australia Airlines: waiting for the upswing 5/410
Concorde enters service to good reviews: New York is the key 5/424
Integration in the European air inclusive tour industry — Part 3 (Conclusion) *(André Perrault)* 5/435
Tempair International: the airline's airline *(John F. Brindley)* 5/438
North Atlantic air cargo: a time for re-assessment *(Arthur Wallis)* 6/527
It's tough at the top. But that's the way Seaboard's Richard M. Jackson likes it *(Arthur Wallis)* 6/529
Civil aviation in East Africa *(Chris Bulloch)* 6/530
Lufthansa guardedly optimistic even in troubled times 6/534
The concept of the aircraft lease *(Robert S. Sowter)* 6/546
A total system for aviation security *(Fred Dorey)* 6/543
Punishment of aerial piracy: a new development *(R.-L. Perret)* 6/545
Is PanAm seeing the end of the tunnel? *(Klaus Höhle)* 7/619
United Airlines also in the red *(Klaus Höhle)* 7/621
Lockheed world air traffic report *(J. P. Geddes)* 7/623
Boeing's view of future air transport growth 7/626
Air cargo's problem areas 7/671
UK independent airlines and their relation to the national airline *(K. W. Clark)* 8/715
Hughes Airwest assists overseas *(J. P. Geddes)* 8/718
Aircraft ground towing: current advantages and potential technology *(Robert W. Forsyth & John P. Forsyth)* 8/725
A review of helicopter IFR operational considerations: the US viewpoint *(Glen A. Gilbert)* 8/709
Autoland starts to pay off for British Airways — Part 1 *(Don Craig)* 8/721
Autoland starts to pay off for British Airways — Part 2 *(Don Craig)* 9/863
Leading personalities on the state of the world air transport industry 10/923
Changing pattern of scheduled airline operations *(Dr. G. P. Khare)* 10/927
Air cargo market undergoing major changes *(S. Koehler)* 10/929
Pillars of world air transport 10/939
Civil aviation training facilities and manpower needs in Africa *(R. E. Owusu)* 10/963
How quickly will the aircraft noise problem subside? *(M. J. T. Smith)* 10/989
Talking of safety — Part 1 *(Douglas Chopping)* 11/1074
Eastern European air transport: McDonnell Douglas' view 11/1075
Air Anglia: local airline makes good *(Chris Bulloch)* 11/1078
Making headway with firefighting 11/1098
Upholding the IATA tariff structure 12/1146
Ground time costs money: handling problems at airports 12/1148

b) General aviation

Little sign of recession in US business aviation: the 1975 NBAA Show *(Irwin Stambler)* 1/75
The story of a Beechcraft dynasty — from the King Air 90 to the King Air 400 *(Marc Grangier)* 2/135
US general and business aviation strides ahead in difficult economic climate *(Marc Grangier)* 3/219
The economics of light aircraft production *(Rolf Wild)* 3/224
Flying the Rockwell Turbo Commander 690A *(Douglas Chopping)* 3/231
Safety is no accident — The first commandment (Guidelines for light aircraft pilots) 3/233
The 1976 Helicopter Association of America meeting *(J. P. Geddes)* 3/207
The Dassault-Breguet Falcon 50 programme: first flight in November 1976 *(Marc Grangier)* 4/383
The AS.350 Ecureuil: the new 5/6 seat helicopter from Aérospatiale *(Bob Salvy)* 5/476
The US general aviation market — a decade of solid growth forecast 6/567
Air Maintenance: at the crossroads of Europe *(Marc Grangier)* 7/660
The Lockheed JetStar II and the Canadair Learstar 600 — aiming for the long-range market *(Marc Grangier)* 7/662
From the Cub to the Cheyenne: *Interavia* talks to Piper's J. Lynn Helms 7/674
Close-up on the Piper Cherokee Lance 7/675
Versatile King Radio 10-Waypoint RNAV *(Douglas Chopping)* 7/659
The 1976 Reading Show — better than ever *(Howard Levy)* 8/703
The HS.125-700 — the bizjet is alive and well *(Derek Wood)* 8/707
The development of the powered glider *(Hans Zacher)* 8/749
Avionics: General aviation sets the trend *(Dan Boyle)* 9/884
Transair France: business aviation in action *(Marc Grangier)* 10/1004
Farnborough: general aviation was there too 11/1055
Rockwell Sabre 75A — Flight report *(Douglas Chopping)* 11/1087
NBAA business aviation showcase *(J. P. Geddes)* 11/1095
Agricultural aviation in Brazil and India: a sharp contrast 12/1158
CSE Aviation: one of the world's leading FBOs 12/1167

c) Civil aircraft

European helicopter manufacture — pushing new products and technologies 1/27
A royal performance: SA 360 Dauphin flight report *(D. H. Chopping)* 1/32
The US helicopter scene — guarded optimism amongst manufacturers 1/39
Flying the Bell 214 Big Lifter *(D. H. Chopping)* 1/46
The story of a Beechcraft dynasty — from the King Air 90 to the King Air 400 *(Marc Grangier)* 2/135
US general and business aviation strides ahead in difficult economic climate *(Marc Grangier)* 3/219
The economics of light aircraft production *(Rolf Wild)* 3/224
The 1976 Helicopter Association of America meeting *(J. P. Geddes)* 3/207
Airbus in the West Indies *(A. Wallis)* 4/298
The uncertain market for commercial aircraft to 1990 — A McDonnell Douglas survey *(J. P. Geddes)* 4/350
The Dassault-Breguet Falcon 50 programme: first flight in November 1976 *(Marc Grangier)* 4/383
Introducing the N24 Nomad 4/378
Civil transport technology up to 2000: NASA believes fuel consumption is major consideration *(J. P. Geddes)* 5/419
The AS.350 Ecureuil: the new 5/6 seat helicopter from Aérospatiale *(Bob Salvy)* 5/476
Concorde enters service to good reviews: New York is the key 5/424
The US general aviation market — a decade of solid growth forecast 6/567
Lockheed world air traffic report *(J. P. Geddes)* 7/623
Boeing's view of future air transport growth 7/626
The Lockheed JetStar II and the Canadair Learstar 600 — aiming for the long-range market *(Marc Grangier)* 7/662
From the Club to the Cheyenne: *Interavia* talks to Piper's J. Lynn Helms 7/76
Close-up on the Piper Cherokee Lance 7/75
Atlantic cooperation or European surrender? 7/609
European prospects in the helicopter field 7/635
The 1976 Reading Show — better than ever *(Howard Levy)* 8/703
The HS.125-700 — the bizjet is alive and well *(Derek Wood)* 8/707
The development of the powered glider *(Hans Zacher)* 8/749
Boeing's view of the aircraft market and European co-operation *(J. P. Geddes)* 9/850
The Boeing 7N7 and 7X7 families 11/1057
Farnborough: general aviation was there too 11/1055
Rockwell Sabre 75A — Flight report *(Douglas Chopping)* 11/1087
NBAA business aviation showcase *(J. P. Geddes)* 11/1095
The ASMR project — will it become a reality? 12/1176
The Boeing 727 goes on . . . and on *(J. Brindley)* 12/1143

MILITARY AVIATION

a) Military aircraft

European helicopter manufacturer — pushing new products and technologies 1/27
The US helicopter scene — guarded optimism amongst manufacturers 1/39
Mil Mi-24: The first Soviet combat helicopter *(Alexander Malzeyev)* 1/44
F-16 programme heads for December first flight *(Michael Brown)* 2/104
Bell's new YAH-63 attack helicopter 3/251
Sukhoi's Su-19 Fencer combat aircraft *(Georgiy Panyalev)* 3/255
Edwards Air Force Base " Open House " 3/264
The West German Air Force re-equips for the 1980s: combat strength increases under cost pressure *(Rudi Meller)* 4/320
Introducing the N24 Nomad 4/378
US small gas turbines *(Irwin Stambler)* 5/440
The West German Air Force re-equips for the 1980s (II) *(Rudi Meller)* 5/459
Sukhoi's swing-wing Su-17/20 Fitter C *(Georgiy Panyalev)* 6/557
European prospects in the helicopter field 7/635
The US Navy's F-18 programme gathers momentum 7/627
The Orao Yugoslav-Romanian combat aircraft *(Nikolai Cherikov)* 8/739
Dassault-Breguet Super Etendard: twelve months to first flight of production model *(Michael Brown)* 10/974
Grumman eyes new markets for E-2C and F-14 *(J. F. Brindley)* 10/976
Land-based F-18 programme firms up 11/1060
Tornado programme slowed by engine delays: 11/1062
Fairchild's A-10 is entering service: the return of the flying can-opener *(J. F. Brindley)* 11/1089

b) Miscellaneous

Air Forces of the world 2/165
The military aircraft scene 2/115
Hawker Siddeley Hawk entering service this year *(Derek Wood)* 2/116
Alpha Jet series production starts for 1978 deliveries *(Michael Brown)* 2/120
The design and development of a military combat aircraft — Part 1 *(B. R. A. Burns)* 3/241
The sea-launched cruise missile *(J. P. Geddes)* 3/260
Edwards Air Force Base " Open House " 3/264
The West German Air Force re-equips for the 1980s: combat strength increases under cost pressure *(Rudi Meller)* 4/320
The design and development of a military combat aircraft. Part 2: Sizing the design *(B. R. A. Burns)* 5/448
The West German Air Force re-equips for the 1980s (II) *(Rudi Meller)* 5/459
The design and development of a military combat aircraft. Part 3: Longitudinal stability and control *(B. R. A. Burns)* 6/553
The Air-Launched Cruise Missile *(J. P. Geddes)* 6/580
The design and development of a military combat aircraft. Conclusion: Lateral stability and control *(B. R. A. Burns)* 7/643
US arms sales: Congress steps on the brake *(Henry T. Simmons)* 10/987
Manufacturing the Maverick *(J. P. Geddes)* 11/1091
The F-9 Chinese combat aircraft 12/1161

SPACE

Venera 9 and 10 — first photos from the surface of Venus *(Eduard A. Konstantin)* 2/145
West German Space programmes: what next? *(Martin Deskau)* 4/339
India joins the Space club *(H. P. Mama)* 4/376
Viking: looking for life on Mars 6/570
The space business — has Europe a chance? *(Dan Boyle)* 7/647
The Soyuz-Salyut programme: Soviet achievements and hopes *(Eduard A. Konstantin)* 8/741
Earth resources management: the role of the Fucino ground station 9/886
After Viking, the Space Shuttle approaches readiness *(J. P. Geddes)* 10/969
Ariane programme on schedule for July 1979 launch *(Michael Brown)* 10/972
Space shuttle economics and US defence potentialities *(Dr. Klaus Heiss)* 11/1071
A closer look at the Space Shuttle Orbiter 12/1170

ENGINES

The TFE 731 goes from strength to strength 1/18
Rolls-Royce pushing for RB.211 orders 2/177
General Electric's view of the engine market 2/180
Turbine blade manufacture for modern aircraft powerplants *(Werner Niefer)* 3/238
SNECMA M.53 Programme status *(Marc Grangier)* 5/409
Civil transport technology up to 2000: NASA believes fuel consumption is major consideration *(J. P. Geddes)* 5/419
US small gas turbines *(Irwin Stambler)* 5/440
Rolls-Royce status report 9/804
CFM56 still looking for an aircraft *(Michael Brown)* 9//847
How quickly will the aircraft noise problem subside? *(M. J. T. Smith)* 10/989
Tornado programme slowed by engine delays 11/1062

ELECTRONICS

Who's who in helicopter avionics 1/48
Omera-Segid's Heracles modular radar 1/74
Area navigation the Garrett way *(J. P. Geddes)* 2/139
Air traffic control automation *(Dan Boyle)* 2/155
German aerospace electronics: the big four dominate *(Dan Boyle)* 4/342
The US air traffic control and navigation equipment market — continuing growth foreseen 5/462
A revolutionary all-weather HUD: *Interavia* previews the Thomson-CSF TC 125 *(Douglas Chopping)* 6/546
Rockwell Autonetics Group moves into new markets *(J. P. Geddes)* 6/550
Flight deck design — technology — money 7/640

Versatile King Radio 10-waypoint RNAV *(Douglas Chopping)* 7/659
A review of helicopter IFR operational considerations: the US viewpoint *(Glen A. Gilbert)* 8/709
Autoland starts to pay off for British Airways: Part 1 *(Don Craig)* 8/721
Aerospace electronics — wait and see in an unstable situation *(Dan Boyle)* 9/805
Ground Proximity Warning Systems — will they survive the enthusiasm? *(Dan Boyle)* 9/852
Autoland starts to pay off for British Airways: Part 2 *(Don Craig)* 9/863
Avionics: General aviation sets the trend *(Dan Boyle)* 9/884
A major step forward in simulation *(Dan Boyle)* 12/1174

INDUSTRY (general)

European helicopter manufacture-pushing new products and technologies 1/27
A royal performance: SA 360 Dauphin flight report *(D. H. Chopping)* 1/32
The US helicopter scene — guarded optimism amongst manufacturers 1/39
Mil Mi-24: The first Soviet combat helicopter *(Alexander Malzeyev)* 1/44
Flying the Bell 214 Big Lifter *(D. H. Chopping)* 1/46
Who's who in helicopter avionics 1/48
Omera-Segid's Heracles modular radar 1/74
Little sign of recession in US business aviation — The 1975 NBAA Show *(Irwin Stambler)* 1/75
Editorial — Public and private enterprise 1/11
The TFE 731 goes from strength to strength 1/18
F-16 programme heads for December first flight *(Michael Brown)* 2/104
The military aircraft scene 2/115
Hawker Siddeley Hawk entering service this year *(Derek Wood)* 2/116
Alpha Jet series production starts for 1978 deliveries *(Michael Brown)* 2/120
Rolls-Royce pushing for RB.211 orders 2/177
General Electric's view of the engine market 2/180
Swedish industry looks ahead *(Dan Boyle)* 2/131
Area navigation the Garrett way *(J. P. Geddes)* 139
Air traffic control automation *(Dan Boyle)* 155
The story of a Beechcraft dynasty — from the King Air 90 to the King Air 400 *(Marc Grangier)* 2/135
US general and business aviation strides ahead in difficult economic climate 3/219
The economics of light aircraft production *(Rolf Wild)* 3/224
Second Western European Union Colloquy on a European Aeronautical Policy *(Felix Müller)* 3/206
The 1976 Helicopter Association of America meeting *(J. P. Geddes)* 3/207
Turbine blade manufacture for modern aircraft powerplants *(Werner Niefer)* 3/238
The design and development of a military combat aircraft: Part 1 *(B. R. A. Burns)* 3/241
Bell's new YAH-63 attack helicopter 3/251
The sea-launched cruise missile *(J. P. Geddes)* 3/260
The West German aerospace industry: state control or free enterprise? 4/315
The West German Air Force re-equips for the 1980s: combat strength increases under cost pressure *(Rudi Meller)* 4/320
West German Space programmes: what next? *(Martin Deskau)* 4/339
German aerospace electronics: the big four dominate *(Dan Boyle)* 4/342
Leading manufacturers of aircraft galley systems 4/374
The uncertain market for commercial aircraft to 1990 — A McDonnell Douglas survey *(J. P. Geddes)* 4/350
The Dassault-Breguet Falcon 50 programme: first flight in November 1976 *(Marc Grangier)* 4/383
Introducing the N24 Nomad 4/378
India joins the Space club *(H. P. Mama)* 4/376
SNECMA M.53 programme status *(Marc Grangier)* 5/409
Civil transport technology up to 2000: NASA believes fuel consumption is major consideration *(J. P. Geddes)* 5/419
The Fokker-VFW recipe for success: slow but sure *(John F. Brindley)* 5/422
Lockheed's ASW market *(J. P. Geddes)* 5/444
The US air traffic control and navigation equipment market — continuing growth foreseen 5/462
The AS.350 Ecureuil: the new 5/6 seat helicopter from Aérospatiale *(Bob Salvy)* 5/476
The design and development of a military combat aircraft Part 2: Sizing the design *(B. R. A. Burns)* 5/448
The West German Air Force re-equips for the 1980s: Part 2 *(Rudi Meller)* 5/459
Where is the German Air Show going? 6/505
A revolutionary all-weather HUD: *Interavia* previews the Thomson-CSF TC 125 *(Douglas Chopping)* 6/546
Rockwell Autonetics Group moves into new markets *(J. P. Geddes)* 6/550
A total system for aviation security *(Fred Dorey)* 6/543
The Air-Launched Cruise Missile *(J. P. Geddes)* 6/580
The US general aviation market — a decade of solid growth forecast 6/567
Lockheed world air traffic report *(J. P. Geddes)* 7/623
Boeing's view of future air transport growth 7/626
Air Cargo '76 at London's Heathrow Airport 7/672
Air Maintenance: at the crossroads of Europe *(Marc Grangier)* 7/660
The Lockheed Jet Star II and the Canadair LearStar 600 — aiming for the long-range market *(Marc Grangier)* 7/662
From the Cub to the Cheyenne: *Interavia* talks to Piper's J. Lynn Helms 7/674
Close-up on the Piper Cherokee Lance 7/675
Atlantic cooperation or European surrender? 7/609
European prospects in the helicopter field 7/635
Flight deck design — technology — money 7/640
Versatile King Radio 10-waypoint RNAV *(Douglas Chopping)* 7/659
The US Navy's F-18 programme gathers momentum 7/627
The design and development of a military combat aircraft. Conclusion: Lateral stability and control *(B. R. A. Burns)* 7/643
The space business — has Europe a chance? *(Dan Boyle)* 7/647
The 1976 Reading Show — better than ever *(Howard Levy)* 8/703
The HS.125-700 — the bizjet is alive and well *(Derek Wood)* 8/707
The development of the powered glider *(Hans Zacher)* 8/749
Aircraft ground towing: current advantages and potential technology *(Robert W. Forsyth & John P. Forsyth)* 8/725
A review of helicopter IFR operational considerations: the US viewpoint *(Glen A. Gilbert)* 8/709
Autoland starts to pay off for British Airways Part 1 *(Don Craig)* 8/721
The Australian aircraft industry — can decline be halted? *(Henry Krug)* 8/729
The Orao Yugoslav-Romanian combat aircraft *(Nikolai Cherikov)* 8/739
Nationalizing the British aerospace industry: when, how — and for how long? *(Derek Wood)* 9/799
Britain-Europe-America: co-operation, but with whom? 9/800
The UK airframe industry 9/802
Rolls-Royce status report 9/804
Aerospace electronics — wait and see in an unstable situation *(Dan Boyle)* 9/805
UK guided weapons — the next move *(Rupert Pengelley)* 9/823
The British equipment industry 9/824
The British aerospace industry in figures and tables 9/825
CFM 56 still looking for an aircraft *(Michael Brown)* 9/847
Boeing's view of the aircraft market and European co-operation *(J. P. Geddes)* 9/850
Ground Proximity Warning Systems — will they survive the enthusiasm? *(Dan Boyle)* 9/852
Autoland starts to pay off for British Airways: Part 2 *(Don Craig)* 9/863
Avionics: General aviation sets the trend *(Dan Boyle)* 9/884
Farnborough International: The biggest SBAC Show ever 10/912
The Japanese aerospace industry in a tight squeeze 10/965
How quickly will the aircraft noise problem subside? *(M. J. T. Smith)* 10/989
Dassault-Breguet Super Etendard: twelve months to first flight of production model *(Michael Brown)* 10/974
Grumman eyes new markets for E-2C and F-14 *(J. F. Brindley)* 10/976
After Viking, the Space Shuttle approaches readiness *(J. P. Geddes)* 10/969
Ariane programme on schedule for July 1979 launch *(Michael Brown)* 10/972
Transair France: business aviation in action *(Marc Grangier)* 10/1004
Farnborough International 76: a second report 11/1039
The Boeing 7N7 and 7X7 families 11/1057
Manufacturing the Maverick *(J. P. Geddes)* 11/1091
Making headway with firefighting 11/1098
Farnborough: general aviation was there too 11/1055
Land-based F-18 programme firms up 11/1060
Tornado programme slowed by engine delays 11/1062
Fairchild's A-10 is entering service: the return of the flying can-opener *(J. F. Brindley)* 11/1089
Space shuttle economics and US defence potentialities *(Dr Klaus Heiss)* 11/1071
Editorial: New directions for US Government policy
The Canadian aerospace industry — towards a promising future? *(J. F. Brindley)* 12/1143
Aircraft manufacturing in developing nations 12/1155
Industries to watch 12/1156
Japanese Air Show report 12/1121

CONFERENCES AND EXHIBITIONS

Where is the German Air Show going? 6/505
Air Cargo '76 at London's Heathrow Airport 7/672
The 1976 Reading Show — better than ever *(Howard Levy)* 8/703
Farnborough International: The biggest SBAC Show ever 10/912
Farnborough International 76: a second report 11/1039
International Meetings and Conferences calendar 1/79; 2/183; 3/265; 4/297; 5/479; 6/504; 7/673; 8/698; 9/888; 10/1009; 11/1032; 12/1179
Making headway with firefighting 11/1098
Farnborough: general aviation was there too 11/1055
NBAA business aviation showcase *(J. P. Geddes)* 11/1095
